EDUCATION

Bachelor of Science in Industrial Engineering (2012-2017)

Polytechnic University of the Philippines - Santa Rosa Branch

PROFESSIONAL PROFILE

I am an aspiring Full Stack Web Developer, a career shifter seeking an entry-level web developer position in a company where I can apply and enhance the knowledge I learned in facilitating project completion and building web applications that will meet the user's needs and exceed the client's expectations.

BOOTCAMP EXPERIENCE

STUDENT

Uplift Code Camp (May 23, 2022 - Nov. 04, 2022)

Created multiple projects that helped in strengthening technical skills and enhancing creativity and problem-solving skills.

Projects Highlight:

Name: Restaurant Application (Full Stack)

Technology Stack : MongoDB, ExpressJS, ReactJS, NodeJS

Overview: An application that has a seller and user interface which provide a selling and buying experience via online. The seller can add and edit offered goods while the user can add-to-cart and checkout.

Name: MedRec (Full Stack)

Technology Stack : MongoDB, ExpressJS, ReactJS, NodeJS

Overview: An application that acts as an electronic medical record for patients. Target users are hospital staffs. It can store data for specific users such as test records and prescribed medicines. The application was created in order to help hospitals work efficiently, effectively, and reduce cost in paper usage.

WORK EXPERIENCE

SENIOR MATERIAL PLANNER

Denso Philippines Corporation (April 27, 2019 - April 30, 2022)

• Project Management

Ensured 100% delivery to customers, managing a total of 5 production lines.

- Scheduled and strictly monitored the supply of materials in order to assure zero (0) line stop.
- Managed the risks that will endanger the flow of schedule. Leading the team in effective and flexible solutions to meet production requirement.

• Supplier Management

Guaranteed to achieve zero (0) delivery behind, handling a total of 36 local and 7 import suppliers

- Resolved difficulties with suppliers and planned ways to meet delivery date dues.
- Enhanced suppliers' 5-why analysis in order to effectively provide and execute countermeasure for problems encountered.
- Evaluated suppliers' performance and assessed areas for improvement.

• Inventory Management

Maintained a balance inventory volume.

- Assessed parts inventory status against agreed target level in order to achieve optimum stock resulting to maximized warehouse space.
